Contact Person: William Belden
P.O. Box 7092
Billings, MT 59103

General Land Use: Well/Facility Site

Affected Medium: Well/Facility Soil

Distance Nearest Occupied Building: 1 Miles

Distance Nearest Water Well: 1 Miles

Type of Incident: Tank Overflow

Release Contained in Dike: Yes - Within Dike

Reported to NRC: No

	Spilled	Units	Recovered	Units	Followup	Units
Oil	0	barrels	0	barrels		
Brine	100	barrels	100	barrels		
Other	0	barrels	0	barrels		

Description of Other Released Contaminant:

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

No immediate risk. Spill was salt water contained within the diked tank area and was immediately recovered upon discovery

Areal Extent:

Potential Environmental Impacts:

Expect some salt contamination of soil within the diked area. Impact to surface or groundwater is not expected.

Action Taken or Planned:

Spill was contained within diked area and recovered using a vacuum truck. All spilled salt water was hauled to the Sequel Snowcover 43-19 SWD well. Sequel will install high level tank switches to shut down the pumping wells at this battery should high tank levels be detected in the future.

Wastes Disposal Location: Spilled saltwater was recovered and hauled to Sequel Snowcover 43-19 SWD well. If any contaminated soil is removed, it will be hauled to the Indian Hills commercial disposal facility.
